

NEW!

1 kg - shell

1 kg - body

2 kg - turtle

Welcoming in the manimo family our brand-new turtle! With a total weight of 2 kg, it's also our very first 2 in 1 weighed animal. Body and shell pieces each weigh 1 kg and may be placed on different areas of the body, for an all-around comforting experience. At the same time, it encourages a shared soothing experience with those around you, thanks to her detachable shell.

Reminiscent of the ocean in her turquoise shiny and silky fabric, our turtle will provide a deep sensory relief and relax body and mind. Lovable, embracing... it will become a favorite among children and adults!

Allows to treat 2 areas of the body at once.
For example, placing the shell on the thighs and the turtle's body on the shoulders.

Improves motor skills (dressing the turtle)

Encourages sharing and inclusion
